the replies of the hundreds of men who refuse to vote for the dishonest candidate for governor. Following will be found brief excerpts from some of the letters. These brief extracts tell the story of republican indignation at the effort of the Burlington exar to foist one of his henchmen upon the state as its governor. In each case the name of the town from which the letter is received is given. The names of the writers are with-held for the reason that The Bee assured them that their replies would be treated as confidential. The originals are all on file in

the managers of the Majors campaign to the contrary, the defection is so serious that it is likely to become a stampede before the day of élection. Thousands of staunch republicans in Nebraska have risen in revolt against the attempt of the corporations to fosist a corruptionist upon the state. The revolt is not confined to any particular locality. It is as strong south of the Platte river as north of it. It is as pronounced in the eastern part of the state as in the far western and , northwestern countles. If it is the most formidable in those counties which have the longest been subject to corporations have in past years been most orporations have in past years been most of the Peptle, even if he is the most formidable in those counties which have the longest been subject to corporations have in past years been made of the people, there the protest against Tom Majors is the strongest, and many counties which have heretofore been locked upon as republican strongholds will this year give pluralities to the opponent of the republican candidate for governor.

Two weeks ago The Bee addressed a circular letter to several hundred republican subscribers to its weekly edition, requesting them to state whether the course taken by this paper in the present campaign met with their approval. The final treaty provides that a parallel, beginning near Ixbul, shall run east to the Usumasinta river, if this river was to be reached in that direction; or to the Chixoy river if the former was not in the way of said parallel. This parallel did not reach the Usumasinta, being not of it, and, according to the treaty, said parallel should have engineers endeavored to prolong it to the Cancuen river, under the groundless assertion that this is the Usumasinta river, thus giving to Mexico over 1,000 square miles of the Gautemalan territory. Senor Lazo Arriga believes that as soon as the Mexican government is informed of the real facts it will change its attitude toward Gautemala and also believes that a war between the two mations is a very improbable contingency, not only because the present difficulties are not af great importance, but chiefly because the treaty provides that all questions incident to the demarcation of the boundary the comb is just, and I hope he will be our next governor. Chancellor Refused to Disavow the Cologne Gazette Articles Which He Had Not Inspired, Even at His Majesty's Order.

BERLIN, Oct. 28.-It is expected that the appointment of Prince von Hohenlohe as imperial German chancellor to succeed Count von Caprivi will be gazetted tomorrow. It is also explained that the Gazette will contain the announcement that Herr von Koeller under secretary of the interior for the province of Alsace-Lorraine, has been appointed income of Alsace-Lorraine, has been appointed by the contained to being political president of the Prussian ministerial council. Both Prince von Hohenlohe and Herr von Koeller this morning accompanied the emperor and empress to Berlin from Potsdam. "In practice 100 pounds of flour will make from 133 to 137 pounds of bread, the average being about 135 loaves. Flour, such as is used by bakers, is now purchased in the sate of bread, about 145 conts. Allowing 15 cent for the shortening and salt, which is certainly very liberal, the materials for a pound to bread, about 145 conts. Allowing 15 cent for the shortening and salt, which is certainly very liberal, the materials for a pound to bread would cost not more than 2 cents. Of course, there should be added to this the cost of labor, rent, interest on investment, because of selling, etc., to make the actual cost to the baker.

"Very few accurate weighings and analyses of bakers' bread have been made in this country, so far as I am aware, but the analyse of bakers' bread have been made in this country, so far as I am aware, but the analyse of bakers' bread have been made in the facts as a shower of land is impending. cellorship assumes attli further the character of an actual dismissal. The trouble ap-pears to have originated in the emperor's reception recently of a deputation of east Prus ian agririans caded by Cou it Zeu Euhlenberg. The deputation was submissive, but the agrarian organization used the reception as proof that the emperor was favorable to Euhlenberg. The latter appeared to be de-termined to remain in office. Von Caprivi submitted a memorandum to the emperor or Tuesday offering to resign if Count Euhlen-

berg remained in office.

Being forced to choose between the two, the emperor, as is known, gave his unqual-fled approval to Count von Caprivi's policy. The eupon, as a set-off to the emperor's reception of the agrarians, the article in the Collowin Capatita of the collowing Ca Cologne Gazette attacking Count Euhlenberg appeared. Euhlenberg resigned on Friday morning. The emperor sent Herr von Lucanus, chief of the civil cabinet, to ask Von Caprivi whether he had inspired the article in the Gazette. Von Caprivi replied in the negative, but expressed his sympathy with that paper's views. The emperor then summoned Count von Caprivi and demanded a public disavowal of the article. Von Caprivi repeated that he had not inspired the article A Tokio paper states that prior to the Chinese naval inspection by Li Hung Chang the men manufactured cannon balls out of clay, painted them black and passed inspection with this bogus equipment. A feature of the situation that cannot be rightly omitted is the universal chorus of sulogies of Count von Caprivi in the press of all parties. Even the Vorwaerts, the organ of the socialists, admits that he is a man to be respected, while the Bismarckian press speaks of him with becoming courtesy The ultra-conservative Krouz Zeitung, after a hasty outburst of exuitation over his downfall, quotes this in today's issue: "That it bears no ill will toward him."

SIGNIFICANCE OF THE AFFAIR. LONDON, Oct. 28.—A special dispatch to be Times from Paris, says the appointment of Prince von Hohenlohe as German chan ellor is construed as a pacific symptom. The correspondent of the Times at Vienna says the resignation of Caprivi has made a very unfavorable impression in the Austrian capital. It is taken to indicate the instabil-ity of the government of Germany.

A dispatch to the Times from Berlin says it is believed that the only departmental changes likely to follow the change in the chancellorship and the Prussian ministry will be those necessary to prevent friction in the state machinery. The emperor being spe cially anxious for the continuity of the pres ent foreign policy, Baron Marshal von Bis berstein, secretary of state for foreign af-fairs, will retain office. CHIPPEWA FALLS, Oct. 28.-This city and vicinity were terribly shaken today by an explosion which occurred on the summit of a hill a mile from town, where was stored in a small building five tons of dynamite. The stuff had been sent here on consignment from a Chicago house to a local hardware merchant. It is presumed a rifle built fired by a hunter into the building lodged in powder that was in storage and that the per-son lost his life. The ground was torn up to a great depth for some distance, while trees and fences for many rods were torn and twisted and quite a number of trees were pulled up by the roots. The glass in every farm house for miles around was shattered. In this city the effect was disastrous to the plate glass fronts, and windows in numbers

of dwellings were broken. conference to devise means, if possible, to down and caused several women to faint, reunite the eastern and western churches the castern and the castern churches the castern and the castern churches the castern churc
